The Future of FX Brokers and Innovations

IMPORTANT RISK DISCLOSURE

PLEASE READ IN FULL

RISK OF CAPITAL LOSS:

Trading foreign exchange, commodities, and other financial instruments carries a high level of risk and may not be suitable for all investors. You may lose some or all of your invested capital. You should only invest money that you can afford to lose entirely.

NO GUARANTEE OF RETURNS:

All figures, statistics, monthly returns, ROI numbers, and performance data shown in this presentation are historical. Past performance makes absolutely no guarantee of future results. Actual results will vary and may be significantly lower or result in losses.

NOT INVESTMENT ADVICE:

This presentation is for informational purposes only. It does not constitute investment advice, a recommendation, or an offer or solicitation to buy or sell any financial instrument. You should seek independent financial advice from a qualified advisor before making any investment decisions.

LEVERAGE AND AMPLIFICATION RISK:

The 12X and 24X amplified account structures involve significant leverage. Leverage amplifies both gains and losses equally. A 24X account closes upon a 5% portfolio drawdown. You can lose your entire deposited capital. These account types are only suitable for investors who fully understand leverage risk.

REGULATORY NOTICE:

TAG Markets is operated by T.M. Financials Ltd, licensed by the Financial Services Commission of Mauritius (License No. GB21026474). 15 years managing
real money in forex markets.
Worked with private family offices
and institutional clients.

NOV 2024-SEP 2025

SONIC AI trader team starts to trade
privately on TAG Markets to test
the TAG trading environment before
COPYX trading platform launches.

SEP 2025-TODAY

SONIC AI launches exclusively on COPYX
TAG Markets' copy trading platform.
Anyone with a TAG Markets account
can follow automatically.
500,000+ followers and growing daily.
#1 ranked strategy on the platform.

BRIDGING THE GAP BETWEEN PROP TRADING AND BROKERAGE **ACCOUNTS**

Our broker works with over 75 liquidity providers, allowing clients to access up to 24x amplified trading capital through strict risk-management parameters. This means a \$1,000 deposit can trade with the equivalent of \$24,000 in market exposure. A 1% monthly performance would reflect as approximately 24% relative to the client's original deposited capital.

IS IT WORTH YOUR RISK?

TRADING RISK

A 24X account closes if the portfolio hits 5% drawdown. To reach 5% drawdown, Sonic AI would need 34 consecutive losing trades. A 12X account requires 68 consecutive losses to close. In 16 months of verified live trading, the maximum consecutive losses ever recorded: 2.

**34 losses needed
2 maximum ever recorded**

BROKER RISK

TAG Markets could theoretically cease operations. No broker is immune to this risk. Mitigation factors: FSC regulated · \$350B monthly volume · 750,000+ clients · Named office-based founders ·

Lloyds insurance up to \$1,000,000

**Regulated · Audited ·
Institutional scale**

STRATEGY RISK

Past performance does not guarantee future results. Gold market conditions can change. The strategy could underperform or fail entirely. Only invest capital you can afford to lose in its entirety. This is not a guaranteed return product.

**Capital can be lost ·
No guarantees**

**To close a 24X account requires 34 consecutive losing trades (MyFXBook "Risk of Ruin" data).
In 16 months of live verified trading, the maximum ever recorded was 2.**
